1.0 Introduction

This non-household Wholesale Charges Scheme for the year 2023-2024 is made by Albion Water Ltd (AWL) and sets out its water and sewerage wholesale charges under the provisions of the Water Industry Act 1991. By the Act and the Licence held by Albion Water Ltd the Company is authorised to set, levy and recover charges for any services provided in the course of carrying out its duties as a water and sewerage undertaker.

Full information in relation to Open Water, including policy documents, the Wholesale - Retail Code and Business Terms can be found on the MOSL website: www.mosl.co.uk

The wholesale charges contained in this Charging Scheme are effective from 1 April 2023.

2.0 General Principles

It is intended that the charges to be made under this scheme will, with any other relevant sources of revenue, provide the income necessary to finance the water supply and sewerage functions of AWL. These charges shall be fixed with due regard to the principles laid down in the Act and relevant Licence Conditions. AWL operates in different discreet geographical areas across England variously providing water, sewerage and recycling services separately or in combination.

There are two main types of wholesale services:

- primary services related to the supply of water and the removal and treatment of foul sewerage, surface water drainage and highway drainage; and
- non-primary services for activities that are not directly related to the provision of primary services.

The Non-Primary service charges have been developed to support retailer service requests. These charges have been designed to meet both the OFWAT Wholesale Charging Guidelines and the Wholesale - Retail Code.

This document provides general information and the Primary Charge information for each separate area together with one for general Non-Primary Charges.

4.0 Non-Primary Charges 2023/2024

In addition to the primary charges, Albion Water has developed non-primary charges to support retailer service requests. These charges have been developed to meet Ofwat's Wholesale Charging Guidelines and the Wholesale/Retail Code.

In hours is Monday to Friday, 8.30am to 5.30pm, excluding bank holidays. Out of hours refers to all other times.

4.1 Relaying/repairing /renewing pipes (incl. the replacement of lead service pipes)

The pipework from the property boundary into the property is the responsibility of the customer. When we find that the level of lead in a water sample is above the regulatory standard we will contact the customer to advise on how to reduce their exposure to lead. We will replace any lead pipes that are our responsibility i.e. between the water main and the property boundary free of charge.

4.2 The provision and maintenance of fire hydrants

Recovery of reasonable costs

4.3 Damage to apparatus

Recovery of reasonable costs

Charges will apply in the event that costs are incurred in relation to the network becoming damaged by the act or omission of the customer, or its agents or subcontractors or any other third party. We shall be entitled to recover from the responsible party the total costs incurred with the reinstatement and associated activities.

4.4 The carrying out of inspections to ascertain whether any provision in or made or having the effect on the Water Industry Act 1991 with respect to any water fittings or with respect to the waste or misuse of water is being or has been contravened
