

We're introducing a hosepipe ban from 22nd July 2025 in Upper Rissington, Gloucestershire.

Hello,

From **22nd July 2025** we're bringing in a Temporary Use Ban (also known as hosepipe ban) in parts of our area. This includes the GL54 postcode, Known as Upper Rissington.

June was the hottest on record, with very little rain and lots of extra water being used in the sunshine. Thames Water have been keeping a close eye on their reservoirs and rivers, and they're lower than normal for this time of year.

Without enough rain in the forecast, we need to take steps to keep taps running for everyone's essential use.

We're committed to doing everything we can, and we really appreciate all your help.

Small changes make a big difference

Small steps like taking shorter showers and turning the tap off while brushing your teeth help stretch supplies further during dry spells. Every drop counts.

In the coming days we will share more information on our website albionwater.co.uk

Thank you for your support,
